The 2016 action RPG fantasy action game featuring World of Warcraft, which was released in July 2014 in South Korea and in September 2014 in Europe and North America, is now available in the Philippines. In a world where people live in peace and the crime rate is zero, the races have lived harmoniously for a thousand years. Within the Lands Between lies a world of numerous nations, tools, and beasts. Nations that stand in the powerful Alliance, and those that are in the weak Horde. Within the Lands Between, which are created between the races and peoples, there is a world where the laws of physics are different, and the order of the Land is controlled by the influence of power. In this wondrous land, the story of the Elden ring is intertwined. Elden Ring is an action RPG fantasy game where players create their own character and journey in the world, and battle as one of the five races – Dwarves, Gnomes, Elves, Hobbits, and Humans. EQF is currently available in Thailand and Taiwan (haven't released the app for India and South Korea). We have a huge list of countries waiting for a release in the near future. The bulk of development has been focused on the main localization for the game, so we can't promise it will work everywhere; but in countries

where it does, we're going to do our best to support you as well. We're focused on releasing it for international players first. Feel free to contact us if you can't play the game and we can either sort out a fix, or you can try to figure out how to translate your own language. If we can do something to help with the development of the EU localization, we'll definitely do that.
